

To our amazing customers –

These last few weeks and upcoming weeks have and will be a trying time for all of us. All of us at Shademaster Nursery wish to inform you that we will remain open this Spring with added precautions in place to protect our customers and employees.

Here at Shademaster Nursery we have a spacious property that allows safe distancing from others in an outdoor setting, offering products that give a sense of therapeutic calm and that can teach children valuable lessons. Working with plants and digging in the soil in the safety of your own yard has been two of the best ways to reduce stress and help build immunity. This can also provide much needed bonding between members of your household as you plan and implement your ideas for your outdoor area.

STEPS WE ARE TAKING TO PREVENT THE SPREAD OF THE VIRUS:

- Whether staff or customer, **do not come to our location if you are feeling unwell or feel that you have been exposed to the virus.**
- Phones and email are staffed and monitored to take any quotes or orders. Our staff can provide pictures and tag plant material without a visit if you wish.
- Payment can be arranged over the phone and we can get you loaded without you leaving your vehicle if you wish. Delivery is also available. Please note there are charges for phone payments and delivery.
- Hand sanitizer will be available throughout the premises and use of our restroom to wash your hands are encouraged for our customers and mandatory for our employees. We will be educating our staff about hygiene practices such as 'No Touch' greetings, avoiding touching the face, and cough or sneezing into one's elbow.
- If you do wish to come inside, our staff will be sure to open the doors for you.

With these precautions in place, we remain optimistic that this virus will subside quickly. We will the best to you, our valued customers and neighbors. We will get through this together!
